

PRESS RELEASE

APP Jet Center Fort Pierce announces the sale of its 41,500 sq ft aircraft manufacturing facility at St. Lucie County International Airport. Built to withstand 130 mph winds, the facility boasts a 36,000 square foot production floor, 5 fully ventilated dust rooms, autoclave, paint booth, 3,500 sq ft of office space, ample parking and apron, and other attractive features. The facility was recently home to Freedom Aviation, developer of the Phoenix, a prototype aircraft. This aircraft, along with related tooling, machinery, materials, forklifts, and various other items are for sale separately or in combination with the facility.

St. Lucie International Airport, a foreign trade zone, is a forty-minute drive south of Melbourne and a forty-five minute drive north from West Palm Beach. The airport is also home to a staffed US Customs facility, open 7 days a week.

Airport Property Partners, owns and operates four fixed base operations. Along with APP Jet Center Fort Pierce, the company owns facilities in Hayward, CA, Manassas, VA, and Sarasota, FL.

Interested parties can contact Christopher Hambleton, General Manager, APP Jet Center Fort Pierce at 772-489-2285 or via email at chambleton@appjetcenter.com.
